## AusSearch and MapIt Webinar Questions

### ***How do I purchase 88B Instruments?***

- Once you have your title search you can then click in the smart search function and select the 88B instrument to order immediately

### ***Can you order the mark sketches?***

- Yes. From the AusSearch home page, select Images and choose Permanent Mark or State Survey Mark and enter the mark number and you will be able to order the sketch.

### ***Can we get a CSV file of coordinates from SCIMS?***

- Yes, you can download a CSV/Excel file.

### ***Does the plan search function show older plans as well as current plans? (ie. relevant to boundary definition)***

- These are only available from HLRV which has all the old charting maps.

### ***How do I find original crown grants?***

- These are currently available through HLRV and requires a manual search for Parish and Town Maps to locate the grantee information.

### ***What happens when you have a Lot in a Parish plan in Sydney, but you need the Crown Plan for the survey info?***

- Check the title first for a title diagram reference or visit HLRV for the Parish or Town Map.

### ***How do I order Road Plans or non-current DPs?***

- These are available through Images or Titles Search from the AusSearch home page.

***Are plans within road reserves discoverable?***

- Recommend a search on HLRV for these as well as inspecting the CRE.

***Does the Plan function work for Portion plans as well?***

- No. You need to order portion plans via Images on the AusSearch site.

***Can you search Polygons as shown on CRE's?***

- This is currently in the pipeline for the next version upgrade but there are some issues that require LRS upgrades. For detailed information on polygon numbers please email [CRV-CRE.Support@nswlrs.com.au](mailto:CRV-CRE.Support@nswlrs.com.au)

***Can the reference map search be accessed from MapIt?***

- Currently only through HLRV.

## **Suggestions for future functionality**

***Is SignIT valid to be used on administration sheets lodged with deposited plan or strata plans at NSW LRS?***

- We are making enquiries with LRS regarding this and will update users shortly.

***Can we get the functionality to measure distances on the screen?***

- This request has been logged for the next software upgrade. All suggestions for upgrades are welcome and there is a suggestion box on the AusSearch home page for you to log these.
